### FACTS FOR VOTERS

Charles McCulloch Makes an Hon est and Masterly Statement of County Affairs.

to the Editor of The Sentinel

Nothing more completely befflee trickery and deception than a straightforward statement of facts. I believe that the tarpayers of Allen county and the city of Fort Wayne are honest, intelligent men, not easily bambooxled or deceived. Living in the noonday of time, they read and think and the editors of republican papers in this city will find that the triumplas of truth and reason are greater than those of misreprescutation. Shander cannot make a subject either better or worse and in the long run it acts like a boomerang upon the party that resorts to it. The true and concises statement of our county affairs, made by our county treasurer, is all that is necessary to puncture the false statements of republican newspapers, and it will be published often enough for every man in the county to read it and these pretended reformers will find that "truth is mighty and will prevail."

The estatement shows that the commissioners did siase \$200,000 of bonds, and they bear five per cent interest, but the premium they brought, of \$4,000, brings the rate of interest to about 4½ per cent or less. They did this to pay off every county order that drew 6 per cent, and to give them money enough to keep the county for the future on a cash basis and at the same time not to stint in the necessary expenses of a thriving county. Several years ago, about the time Mr. Rudisill was audifor, a large number of wooden bridges, on pile foundations, were built within a period of four years. Everyone knows what kind of bridges they were from the one at Rudisill's mill and Muldoou's dam. During the last four years these bridges have had to be robuilt or repaired at a cost of over \$150,000, and in order to verify my statement I give figures of cost and location of bridges, and this will tell why for four years past the expenditures of the county have been heavy:

Wells atter thinge, St. Many sirver. \$1,100 and the process of the county have been heavy:

Wells atter thinge, St. Many sirver. \$1,100 and the process of the process of the process of

cratic county ticket was nominated and as fir. P. S. O'Rourke said to me a few days age, "it is as good a ticket as was ever nominated in Allen county," and Mr. O'Rourke is a close observer and always says exactly what he means. He also suid that he had known Mr. Nieser from his boyhood, and that he was the soul of honor. The laws that regulate the county officials in the banner democratic county of Allen regulates them in republican county itse. Allen county's prosperity and growth has been wonderful within the past few years, and the workingmen who are building homes faster than ever all over our beautiful city, still haveconfidence in our public servants in spite of the attempts of newspaper gentlemen at each heleting to descript them. the attempts of newspaper gentlemen at each election to deceive them. Respectfully, CHARLES McCULLOCH,

Respectfully,

Ohn L. Hill, of Philadelphia, has returned from Europo, where he combined business with pleasure by examining all the big checks in Europe, with a view to acquiring knowledge which might to useful in view of the fact that Philadelphia intends to have the largest clock in the world in the tower of her new City Hall. The dial will be 30 feet in diameter. Great Ben, as the clock in the tower of the House of Parliament at London is manuel, has a lified of 22 feet 10 inches diameter. The works weigh 14,080 pounds, and it is gnarded as carefully as if it were a gold mine. A record is kept of its workings, and it has varied but one-tenth of a second in the last two or three years. A person has to climb 1,400 steps to reach the clock. It takes two men four and a half hours each day to wind it up, and every morning its record is taken and transmitted to Mr. Dent, the unker. The lighting in the tower is done by hand. It could all be done by machinery, but the object of doing it by hant is to electer beament.
